Chain Fork

Standard Equipment Valve

Ruggedly constructed, US manufactured sectional valve and 25' corded remote control provided. Custom roto-molded cover included for weather protection and clean lines. Fully installed, plumbed, and quick-disconnects provided with FIFTHWHEELER. Valve stays with Zacklift during drive-off. If non PTO/pump use is required, 12V self-contained power system can be subbed.

25' Corded Remote

OPTIONAL Wireless Remote Control

High quality chassis mounted decoder updates signal several times per second to eliminate outside interference. Rechargeable battery. 50 yard range. 6 function or 8 function with winch operation.
